

### **Statement for Public Disclosure:**

Due to ongoing legal proceedings and the need to protect my legal interests, I am limited in the amount of information I can publicly disclose at this time. However, the **severity of the systemic fraud, retaliation, and suppression I have faced requires public awareness for my safety and the safety of my child.**

I am releasing select evidence as able to do so without causing damage to my cases, to ensure accountability, expose documented violations, and prevent further suppression along with the hope of stopping retaliation.

This information is being archived as a **permanent record** of the criminal misconduct that continues unchecked. I urge anyone with knowledge of similar issues to come forward, as suppression of due process and whistleblower retaliation affect us all.\*

*More details will be made available as legal actions progress. For now, the documents and evidence provided and posted on archive.org serve as proof and will continue to show that federal, state, and institutional actors have actively obstructed my rights, ignored legal complaints, and engaged in systemic misconduct that threatens our well-being. As a disabled single parent with a child, it is difficult to try to tackle any of this very large situation.*

*Please check archive.org for updates – case number is 3:25-CV-00033-BJB-RSE or can be abbreviated 25-CV-33-BJB or 25-CV-33-BJB-RSE.*

*If you are an investigative reporter or journalist interested in uncovering systemic civil rights violations, fraud, and government retaliation, I urge you to reach out to me. This case involves a U.S. citizen—a single disabled father—who has been systematically denied fundamental rights and subjected to ongoing retaliation.*

*If you are a student journalist, you may be even more eager to bring attention to this critical issue. This is an opportunity to expose a wide-ranging case of injustice that demands public awareness. Please contact me if you are willing to investigate and help bring the truth to light.*
